

The complete solution for your lifting job

Green Pin Tycan® lifting assembly components

Green Pin Tycan® fibre chain offers all the performance and flexibility of steel chain but is eight times lighter than steel. A choice of five sizes of lifting chain with matching fittings allows you to manufacture a complete chain assembly with a Working Load Limit of up to 21.2 tons. The chain fittings, specially developed for use with Green Pin Tycan®, include a connecting link, a shortening hook and a sling hook. The clevis of the hooks and the bearing surface of the connecting link have been specially designed to perfectly fit Green Pin Tycan® chain links. This guarantees safe assembly of the chain and its fittings.

Below, you can find an overview of the complete lifting system and complementary products currently on offer, including the article codes for individual components.

The complete solution for your lashing job

Green Pin Tycan® lashing assembly components

Green Pin Tycan® fibre chain offers all the performance and flexibility of steel chain but is eight times lighter than steel. Green Pin Tycan® Lashing Chain with a lashing capacity (LC) of 10 ton or 13.6 ton and a loadbinder with hooks, specially developed for use with Green Pin Tycan®, provide the best possible load securing during transport.

Below, you can find an overview of the complete lashing system and complementary products currently on offer, including the article codes for individual components.
